

Salmon-Safe Brews

Salmon approved sustainable beer

Be a part of the growing farming movement towards Salmon-Safe hops with craft brewery leaders like New Belgium Brewing, Deschutes Brewery, Full Sail Brewing Company, Hopworks, Urban Brewery & many others building the market.

To achieve Salmon-Safe certification, hop growers transition farms to practices that protect water quality, reduce irrigation water use, and restore habitat. Over eighty percent of United States hops are sourced from within two Northwest salmon watersheds, the Yakima and Willamette valleys in Washington and Oregon respectively.

Beers sourced from Salmon-Safe hops:

Deschutes Brewery:

Black Butte Porter, Deschutes River Ale

Fremont Brewing:

Fresh Hop Ale

Full Sail Brewing Company

Hopworks Urban Brewery:

IPX

New Belgium Brewing:

Hop Kitchen, Ranger, Rampant, Slow Ride

Widmer Brothers Brewing

Worthy Brewing:
